The Community Housing Affordability Collective and Housing Partnership Canada are pleased to offer a workshop to senior non-profit leadership.

In order to position your non-profit organization for future opportunities, it is essential to have a supportive Board of Directors. However, encouraging a Board to pursue innovation and managed risk often takes time and a deliberate approach. This session will explore how, as senior leadership, you embark upon a persuasive conversation with your Board on positioning the organization to actively pursue new opportunities.

Housing Partnership Canada (HPC) is a collaboration of Canada's housing leaders. HPC operates as a peer based network and business cooperative for senior housing practitioners of influential organizations which have a demonstrated commitment to innovation. HPC provides a catalyst for a dynamic exchange of information and experiences among its members, and fosters deeper collaboration and exploration on business practices and approaches with regard to the development, operation and sustainability of social housing.
